If you choose The Whole Person as your employment service provider, the VR Counselor will meet with you and one of our Employment Specialists to discuss your goals and services. This meeting can be in your home community.

4. Begin your job search

Following the Vocational Planning Meeting, you will begin weekly meetings with your Employment Specialist at a location in your community or in the city you wish to find work. We will do all we can to provide support during your job search.

5. Return to work/follow-up support

We want to make sure things are going well once you start working. We will be in touch regularly to discuss any challenges you encounter and to discuss strategies on keeping up with work demands.
